NOTE: You may be required to provide written justification for the estimates used in preparing this information. Use the PROJECT SUMMARY STATISTICS form on the following page as a guide to determine the appropriate entries.

Please note that Administration Costs have not been sub-allocated over the individual service areas. These costs are incurred at the program level. The distribution over service areas varies over time and the level of administrative activity that may occur in any area.

Ridership:

The number of one-way passenger trips for the periods requested. A one way passenger trip occurs each time a passenger boards a vehicle. For example, transporting a person to and from a doctor's office constitutes two trips.

Mileage:

Refers to the total number of miles you expect vehicle(s) to be driven

Vehicle Hours:

Refers to the number of hours vehicles are in revenue service. To obtain the number, multiply hours of daily operation times days per week the system will operate times weeks of service per year times the number of vehicles to be used. For example, if the service will be available 8-5, M-F, for 50 weeks during the year using 3 vehicles, the vehicle hours would be 6,750 (9 hours x 50 weeks x 3 vehicles).

Passenger Revenues:

Farebox revenues are fares paid by the riders. Amounts listed here are the anticipated farebox revenues and must be used to offset the cost of system operation. (Farebox revenues cannot be used to satisfy match requirements.)

Other Operating Revenues:

Are those cash funds received from other non-federal sources (i.e., private donations/contributions, dedicated tax revenues, state or local appropriations and net income generated from advertising and concessions.

Donations:

Those funds donated in lieu of passenger fares.
